

GeekTalks

Tema:
JavaScript
#geekspaceit

Is **node**  suitable for building a huge facebook/linkedin like social network?

Let me introduce myself

- MEAN full-stack developer at Viseven EU
- Hobbies:
 - ▶ Football
 - ▶ Trying new things
 - ▶ Reading interesting books (mostly IT)
 - ▶ Cooking :-D

My answer is - YES...

... and for all people who disagree with
this statement I can say only one thing:

Linked 

UBER

NETFLIX

PayPal

Easy to learn and use

Common programming language for
front and back end

Asynchronous

Non-blocking I/O model

Event Loop

Performance

Module ecosystem

Scalability

FIGHT!

GAME WORLD BR

So, when you have planned to migrate your project on
NodeJS??
